

AMBASSADOR'S
WHITE LION
APOTHECARY™

HEMP EXTRACT TEA

The classic White Lion flavors you know and love (Cranberry Hibiscus, Green Passion, and Citrus Chamomile) are now available with hemp extract through White Lion Apothecary!

These premium teas are infused with all-natural, water-soluble hemp extract utilizing our proprietary process; this results in maximized bioavailability of hemp's therapeutic properties. Because hemp contains no THC, you can enjoy a deliciously flavorful cup of tea any time of day. Relax, de-stress, and absorb the benefits of our high-quality, all-natural hemp extract teas!

WHAT IS HEMP EXTRACT?

Hemp extract (also known as CBD) is a naturally-occurring compound found in the resin of industrial hemp. It is free of THC, meaning you get all the therapeutic benefits without the high.

WHY HEMP EXTRACT?

Though hemp has been used in cultures around the world for thousands of years, scientists and doctors are finally starting to confirm its many health benefits with in-depth research and evidence-based anecdotes.

These anecdotes and research show that hemp extract can help ease maladies such as chronic pain, anxiety, inflammation, stress, depression, and neurological conditions (among others).

Tea has also been used around the world for thousands of years, and continues to be the essential beverage for millions of people. Plus, tea has plenty of healthy properties on its own! Between their combined health benefits, tea and hemp extract is the most natural and holistic pairing in the world.

WHY WHITE LION HEMP EXTRACT TEA?

White Lion has been renowned for our premium teas for over 20 years, and now we're taking those high-quality teas to the next level with an infusion of our all-natural hemp extract.

Our hemp extract infused tea:

- Is water-soluble, so there is no separation or residue
- Has no hemp flavor or smell
- Contains maximized bioavailability due to our proprietary blending process
- Is tested in an independent 3rd party lab (we will happily share results upon request)
- Contains all-natural, pure hemp isolate
